

Why Hiring a Personal Injury Lawyer is Vital After an Injury Caused by Negligence

Recovery - Your recovery is our priority. Our Team will guide you in your case from the time you seek medical treatment for your injuries, through your recovery process, and ultimately to negotiations and case settlement.

Money - When you are hurt in an accident you are likely facing not only physical injuries, but financial losses as well. Our injury lawyers can help you recover money for your medical bills, lost wages, and for your pain and suffering. Studies have shown that people who hired a lawyer win 3-5 times more in settlement compensation than people who do not hire a lawyer.

From Our CEO/Owner

Hello,

The month of May was a busy month for the Sargent Law Firm with lots of exciting plans for Firm growth and our

Time- A personal injury case requires massive amounts of time and energy. We make it easy for you by keeping you consistently updated on your case, so you can use your valuable time and energy to heal.

Experience- Our Firm has decades of experience working with other lawyers, medical providers, expert witnesses, local courts, and insurance companies in personal injury cases. We know the value of your case, the process of the injury claims, and how to get the best outcome for your injury claim.

Peace- Insurance companies have teams of attorneys and claims adjusters that are trained to minimize how much they compensate injury claimants. Having an advocate from the Sargent Law Firm on your side will provide you with the peace of mind that you have a team of people representing YOU and your best interests.

If you are ever unsure whether you need a personal injury lawyer, do not hesitate to give us a call, and talk to one of our Team members about your accident. Remember that we offer free case consultations, and you never pay until your case is settled.

future. We continue to focus on consistent client updates, and systems within our Firm to ensure continuity in our clients' experience.

We look forward to a long weekend to honor the men and women who paid the ultimate sacrifice for our freedom. Please remember that Memorial Day Weekend has historically been a weekend with increased accidents, and a majority of them caused by negligence. With this in mind, please act responsibly, and be extra cautious while driving and traveling.

Best Regards,
Ryan Sargent, ESQ.
